

One Little Step is a non-profit organization which provides a specialized movement program for children with physical disabilities such as Cerebral Palsy.

Our primary goal is to teach these children to be as independent as possible. One Little Step is dedicated to the comprehensive development of each child's personality, enabling him or her to become an active member of the society .

One Little Step provides a positive, nourishing environment, and a program that recognizes the importance of "play" and sensory integration while motivating the students to be as independent as possible.

Our facility is located in Glassboro, New Jersey. We offer our Movement Program on Tuesday and Thursday afternoons from 3:30 p.m. to 6:00 p.m.

Our Movement program utilizes the principles of the **Feldenkrais Method™**.
